The Green Team

connecting people with nature

Our wide range of programmes for children and young people from pre-school to 18 years old, provide positive and enjoyable experiences: spending time with others, being active in the outdoors and developing new skills.

Working together we make improvements to the ecology and bio-diversity of the environment and for the benefit of local people. Our projects help increase understanding of the natural world and our part in it.

We support participation in DofE and the John Muir Award.
